*Percentage: 71%*

## PROJECTS

---

**Color Flipper (HTML, CSS, JavaScript)**

*Mar 2025*

*Personal Project*

- Built a web application that changes the background color to a random value with each button click.
- Practiced DOM manipulation, event handling, and random color generation using JavaScript.
- Enhanced UI using basic CSS transitions and layout styling.

**Digital Clock (HTML, CSS, JavaScript)**

*Jan 2025*

*Practice Project*

- Developed a real-time digital clock that displays hours, minutes, and seconds.
- Used 'setInterval' to update the time every second.
- Styled the layout with CSS to resemble a digital alarm clock.
