Languages (Adept): Java

Languages (Familiar): C, C++, Javascript, Python

Developer Tools: VS Code, IntelliJ, WebStorm

Technologies /Framework: React, NodeJS, GitHub

PROJECTS

Servers with Traefick

- Deployed a suite of Dockerized services (code-server, Portainer, jenkins, mariadb) on a VPS using Traefick as a reverse proxy with automated SSL via Let's Encrypt.
- Integrated Traefick with Cloudflare DNS for dynamic, secure subdomain routing using API tokens and ACME challenges.

Job Portal – *ReactJS , Tailwind CSS, Supabase, Clerk, Shadcn UI*

Expense Sharing App – *ReactJS, NodeJS*

- Developed to split the expenses in multiple people.
