## EXPERIENCE

### Freelance Usability Tester

*UserTesting.com & uTest.com*

Jan 2022 – 2024

*Remote*

- Conducted usability tests for websites, mobile apps, and prototypes across various industries
- Provided detailed video and written feedback on user experience, UI/UX design, and usability issues
- Participated in exploratory, functional, and scenario-based testing tasks
- Reported bugs and suggestions that improved product quality and user satisfaction

## PROJECTS

### Anavrin – Doorstep Car Wash Website | *HTML, CSS, JavaScript, Formspree*

July 2025 – Present

- Designed and developed a responsive landing page for **Anavrin**, a doorstep car wash service startup
- Implemented partial dark mode functionality using JavaScript and CSS variables
- Integrated **Formspree** for contact form submissions, enabling a backend-less architecture
- Used semantic HTML and modular CSS for accessibility, scalability, and maintainability
- Focused on modern UI/UX design with plans for booking flow, pricing section, and dark mode persistence
